

ALGAE-C

Name: Algae-C
Country: Canada
Incorporated: 2018
Fund: Katapult Seed Fund 1

Problem:

The pharmaceutical industry is struggling with increasing drug ingredient prices, supply chain instability, and decarbonization mandates around drug ingredient manufacturing.

Solution:

Algae-C has developed a carbon-negative, single-step manufacturing platform for complex drug ingredients that lowers ingredient cost and minimizes supply chain risk bringing production closer to home.

Impact:

“Algae-C is pioneering the next major step in biomanufacturing, allowing for even the rarest of drug ingredients to be manufactured at a low-cost and in a sustainable manner. Our technology platform will help create a sustainable future and a world where drugs are more available and accessible”

Mather Carscallen
CEO, Algae-C
